'An Injury to One an INJURY to All'

Big Meeting in Melbourne.

Oh, who can tell why
While hearts beat loud
Our love will last
When time and tide...

HUMANITY
Oh, our only plea;
Justice we can only cry.
We'll strive until we die
Our liberty to stand
With all men hand in hand
As men to men.
Then but their right we claim;
Don't waste those hearts of mine.
Let this be our only aim—
Our Liberty.
Our brothers must be free
From jail's unloving chains.
For peace abounds.
Help us to our cause defend;
Oh, who, but hand in hand
And, men, to men, their liberty.

STATEMENT OF PRINCIPLE.
The working class and the employing class have nothing in common. There can be no peace so long as hunger and want are found among millions of working people, and as long as the employing class have the means of making use of the state to maintain their power and压迫 their freedom.

We find that the center of the management of industries is fewer and fewer hands, under which the trades unions cannot cope with the growing power of the employing class.

Therefore, brother, make your strength a specialty among the workers of the world organization as in the presence of the earth and the machinery of production, and abolish the wage system.

We find that the center of the management of industries is fewer and fewer hands, under which the trades unions cannot cope with the growing power of the employing class.

Therefore, brother, make your strength a specialty among the workers of the world organization as in the presence of the earth and the machinery of production, and abolish the wage system.

A CONSCIENTIOUS JUROR.

In a working class jury was about to enter on its work, when the judge himself stood up and declared as follows:

"I trust, that you all understand the importance of this duty.

"You are free to have a jury of your own, but I am bound to the duty of the law."

"You must understand that your presence here and the fact that you have been elected are sufficient evidence of your willingness to serve."
ETHICS AND
THE I.W.W.

During the few years, the I.W.W. has been able to increase its membership, and no charge has been brought against it. The latest hand to hand fight is waged against the I.W.W. It is being levied at us in a sympathetic tone and tendered in the way of a declaration of war.

The author of the new charge is a member of the Legislative Committee of the U.S. A. He is an advocate of the new charge. He is a long and interesting article addressed to the editor he offers many suggestions.

After a few queries for the theme, the author of the new charge says: "The I.W.W. will never seduce "the small worker" from his true allegiance. He is trying to get some of the worst parts of the lives of his followers, it at the same time, that the I.W.W. can present to the world as ideals, as an example of what the other organizations are doing.

Although the I.W.W. is a national organization, fighting a great, force, union and church, a just appeal to them to unite and get into the I.W.W. is not the answer. The I.W.W. is making a direct appeal to the working class, and we are asking for a mass meeting of all the organizations to discuss the question.

We believe the people are not interested in the I.W.W., but they are interested in their fellow men. They will not tolerate the I.W.W., but they will not tolerate the idea of a mass meeting of all the organizations to discuss the question.

What we want is SOMETHING NOW. To put an end to this strife, we are not interested in a mass meeting, but we are interested in a mass meeting of all the organizations to discuss the question.

The I.W.W. in fighting to get more of what the workers have, is trying to build up the whole of the working class upon its head.

Because the I.W.W. dared to challenge the whole body of the laboring class to all the good things of life, it is now being maligned and persecuted.

Anyone who understands the principles of the I.W.W., cannot accuse it of not paying attention to its task. Anyone who has studied our literature knows full well that we are the best of the causes.

We look forward to the day when the workers will get THE FULL PRODUCT OF THEIR TOIL, and all will work to gather in harmony for the common good of all.

We believe that by organizing on the lines that have been laid down, we can help to bring nearer the day when classes, slogans, money, poverty, and crime will be things of the past, and the whole human family will enjoy the gladness of working together, without any fear where there will be neither master nor slave.

We have visions of the future when the world will be one big co-operative Commonwealth.aje.

Demicaply applied to in- direct action, the I.W.W. will be no more for lords and rulers. The working class will be the only class, and the diets of all grades will be looked upon as relics of a-al and barbarous past.

Yes, dear fellow, the I.W.W. is more than a labor union. It is a church of the working class. It is a place where the Bible can be read aloud. Ideas which help to bring out all that is noble and best in mankind. We believe in the future where there may be the highest when he sees it.

We are not the highest since the highest is the best and foremost mankind. We wish to do our work, but the best when she sees it.

By this we wish to express the highest that we can see.

The I.W.W. is the highest, and I.W.W., the best and foremost mankind. We wish to be the highest, and I.W.W., the best and foremost mankind. We wish to get our work, but the best when she sees it.
AN APPEAL TO THE ELECTORS OF THE MANKIANG DISTRICT.

ASPIRING M.L.A.

(by S. T. R.)

Ladies and Gentlemen,—

Our State has produced in its time hombres and women who have done well and accomplished much. Occasionally, in their later years, many of these distinguished citizens of our State are honored with a gold cross and a sum of money. McCarthy, although wounded in the course of his duties, was shot in the back, and lost his life. The State and the people of our State are deeply grieved for the loss of this brave and loyal citizen. We are all aware that the death of McCarthy has brought great sorrow to his family and friends. We offer our deepest sympathy to them and to all those who knew and loved him. We will cherish his memory as a great and noble man.

I am sure that all the people of our State will agree with me in this sentiment. We will remember that McCarthy was a true patriot and a loyal citizen. Let us honor his memory by carrying on the work he started and by working for the betterment of our State.

S. T. R.
Spasms.

The workers in the slaughtering and freezing industry in the Brisbane district today struck after a long series of three separate unions on the works, the P.U., the Butchers and Cheesemakers, the Engineers and Joiners. As a result nearly 1,000 men and women were thrown out of jobs for the first time in their lives. The strike was the outcome of the treatment meted out to the workers. The reduction of wages of the workers, the heavy loss of pay due to the long hours of work, the high price of living, and the poor treatment given to the workers by the employers were the main factors in the decision to strike.

The workers were unanimous in their determination to fight for better conditions and wages. They were determined to stand up for their rights and not to be oppressed any longer.

The strike was a complete success, with no disturbances or incidents.

Delegates were appointed to negotiate with the employers and to ensure that the workers' demands were met.

Delegates from all three unions were elected to this committee.

The strike was a great victory for the workers and showed that they were willing to fight for their rights. It was a historic day for the workers in Brisbane.
